

**PERAN KOPERASI TERHADAP KEBERDAYAAN
PETERNAK SAPI PERAH
(Kasus di Wilayah Kerja KSU Tandangsari Desa Mekarbakti Kecamatan
Pamulihan Kabupaten Sumedang)**

MUHAMAD FATHUR FAHMIL

ABSTRAK

Penelitian dilakukan kepada Peternak Sapi Perah di KSU Tandangsari, Desa Mekarbakti, Kecamatan Pamulihan, Kabupaten Sumedang. Penelitian bertujuan untuk menganalisis peran koperasi terhadap keberdayaan peternak sapi perah. Metode yang digunakan dalam penelitian merupakan metode survei yang melibatkan beberapa peternak sapi perah yang dijadikan sebagai responden sebanyak 30 peternak. Area penelitian ditentukan dengan sengaja. Metode analisis yang digunakan merupakan metode analisis korelasi *Rank Spearman* dan untuk melihat keeratan suatu hubungan menggunakan aturan Guilford. Hasil penelitian menunjukkan bahwa peran koperasi terhadap keberdayaan peternak dari 22 peternak (73,33%) termasuk kedalam kategori sedang, keberdayaan peternak dari 24 peternak (80,00%) termasuk kategori sedang dan hubungan peran koperasi dengan keberdayaan peternak dilihat dari nilai korelasi *rank spearman* hanya sebesar 0,307* yang artinya hubungan antara peran koperasi dengan keberdayaan peternak cukup lemah.

Kata Kunci: Peran Koperasi, Keberdayaan, Peternak Sapi Perah

**THE ROLE OF COOPERATIONS ON THE EMPOWERMENT OF
DAIRY COW FARMERS**
(The case is in the working area of KSU Tandangsari, Mekarbakti Village,
Pamulihan District, Sumedang Regency)

ABSTRACT

The research was conducted on dairy farmers at KSU Tandangsari, Mekarbakti Village, Pamulihan District, Sumedang Regency. The research aims to analyze the role of cooperatives on the empowerment of dairy farmers. The method used in this research is a survey method involving several dairy farmers who serve as respondents as many as 30 farmers. The research area is determined on purpose. The analytical method used is the Spearman Rank correlation analysis method and to see the closeness of a relationship using Guilford's rule. The results showed that the role of cooperatives on the empowerment of farmers from 22 farmers (73.33%) was included in the moderate category, the empowerment of farmers from 24 farmers (80.00%) was included in the moderate category and the relationship between the role of cooperatives and the empowerment of farmers was seen from the Spearman rank correlation value only 0.307*, which means that the relationship between the role of cooperation and empowerment is quite weak.
